

Low-Carb Whey Cookies (Eggless) + Variations

A softer cookie formula than biscotti, designed to use whey isolate without becoming dry or chalky. Think everyday tea cookies with moderate protein and lower carbs.

Base Cookie Dough

- 180g almond flour
- 25g unflavored whey protein isolate
- 20g coconut flour
- 1 tsp baking powder
- 1/4 tsp salt
- 75g powdered monkfruit/allulose sweetener
- 75g softened butter
- 2 tbsp flaxmeal + 6 tbsp water (flax egg)
- 1 tsp vanilla extract

Method

1. Preheat oven to 325°F.
2. Mix flaxmeal + water and let gel for 5–10 mins.
3. Cream butter + sweetener.
4. Add flax egg + vanilla.
5. Mix dry ingredients separately.
6. Combine wet + dry until dough forms.
7. Scoop cookies onto parchment-lined tray.
8. Flatten slightly.
9. Bake 12–15 mins until edges set.
10. Cool fully before handling.

Variation 1: Chocolate Chip

Add 60g sugar-free chocolate chips + pinch espresso powder.

Variation 2: Lemon Almond

Add 1 tbsp lemon zest + sliced almonds.

Variation 3: Orange Pistachio

Add orange zest + 50g chopped pistachios + optional goji berries.

Variation 4: Cardamom Cashew

Add 1/2 tsp cardamom + chopped cashews for an Indian bakery-style cookie.

Variation 5: Double Chocolate

Replace 20g almond flour with cocoa powder + add chocolate chips.

Texture Tips

- For crisp cookies: bake 2–3 mins longer.
- For softer cookies: slightly underbake.
- If dough feels dry: add 1 tbsp Greek yogurt.
- If dough feels sticky: chill 20 mins.
