

Mixed-Nut Sugar-Free Toffee — Quick Guide

Perfect Nut Ratio

To ensure the toffee holds together well:

- Use **1 cup pre-mixed nuts** (almonds, cashews, pistachios, pecans)
- Add **1 additional cup roasted cashews**
- Mix together, then take **1 cup** from this mixture for the recipe.

This gives at least **50% cashews**, ideal for binding, softness, and clean slicing.

Ingredients (For 1 Batch)

- Rebalanced mixed nuts – **1 cup**
- Allulose – **1/2 cup**
- Water – **1–2 tbsp**
- Butter or ghee – **1–2 tsp** (recommended for mixed nuts)
- Rose water or vanilla – **1/2–1 tsp**
- Cardamom – pinch

Method

1. Melt allulose with 1–2 tbsp water on medium-low until syrupy and lightly golden.
2. Add **1–2 tsp butter/ghee** and melt fully.
3. Add prepared mixed nuts and cook 2–3 minutes on low until the mixture forms a cohesive mass.
4. Turn off heat; stir in rose water/vanilla and cardamom.

5. Spread on parchment, cool completely, and slice.

Texture Tips

- Keeping at least ****50% cashews**** ensures binding.
- Butter improves softness and prevents crumbling.
- Do not overcook allulose; light golden = soft chewy toffee.
- Slice only after completely cooled.

Flavor Variations

Rose-Pistachio

Add 1 tsp rose water + 1 tsp dried rose petals.

Coffee-Hazelnut

Add 1/2 tsp instant coffee + vanilla.

Saffron Almond-Pistachio

Infuse saffron in 1 tsp warm water and add at the end.

Maple-Walnut

Use maple essence + pinch of salt.
