

Low-Carb Papdi Recipes (Fried & Baked Versions)

■ Low-Carb Fried Papdi (with Besan)

Makes: ~55–60 papdis (2-inch size)

Texture: Crisp, golden, slightly flaky

Shelf life: 7–10 days airtight

Net carbs: ~2.5–3g per papdi

Ingredients:

- Almond flour – 2 cups (200 g)
- Coconut flour – 4 tbsp
- Besan (gram flour) – 4 tbsp ($\frac{1}{4}$ cup)
- Psyllium husk powder – 2 tbsp
- Salt – 1 tsp
- Ajwain – 1 tsp
- Cumin powder – $\frac{1}{2}$ tsp (optional)
- Hing – a pinch
- Melted ghee or butter – 4 tbsp
- Warm water – 5–6 tbsp (approx.)
- Oil or ghee – for frying

Method:

1. Mix almond flour, coconut flour, besan, psyllium, salt, ajwain, cumin, and hing.
2. Rub in ghee until the mix is crumbly.
3. Add warm water gradually to form a firm dough. Rest 10–15 mins.
4. Roll out thin (2 mm) between parchment sheets.
5. Cut into 2-inch rounds; prick with fork.
6. Fry in medium-hot oil (325°F / 160°C) until golden and crisp.
7. Cool completely before storing airtight.

Flavor Options:

- Add kasuri methi for masala flavor.
- Sprinkle chaat masala after frying.
- Add sesame seeds for nuttiness.

■ Low-Carb Baked / Air-Fried Papdi

Makes: ~40–50 papdis

Texture: Light, crisp, slightly nutty

Net carbs: ~2g per papdi

Ingredients:

- Almond flour – 1 cup
- Coconut flour – 2 tbsp
- Psyllium husk powder – 1 tbsp
- Besan (gram flour) – 2 tbsp
- Salt – ½ tsp
- Ajwain – ½ tsp
- Cumin powder – ¼ tsp
- Melted ghee – 2 tbsp
- Warm water – about 3 tbsp
- Baking powder – ¼ tsp (optional)

Method:

1. Mix dry ingredients and add melted ghee.
2. Add water gradually to form a firm dough; rest 10 mins.
3. Roll out between parchment sheets to 2 mm thickness.
4. Cut into 2-inch rounds; prick with fork.
5. **To Bake:** 350°F (175°C) for 10–12 mins, flip, then bake 5–8 mins more.
6. **To Air-Fry:** 325°F (160°C) for 6–8 mins.
7. Cool completely before storing.

Tips:

- Re-crisp by air-frying for 2–3 mins before serving.
- Great base for dahi papdi chaat or mini appetizer bites.
